

NanoBindM3TM - Long-term Dust Suppression & Capping solution

- * Environmentally safe & non-toxic
 - * A bio-degradable, natural polymer
 - * VERY cost-effective solution

- Best on the market for dust capping at 'cost/square metre/ month'
- Performance that matches or exceeds non-enviro-friendly substances
- Applicable and effective for most longer-term Dust Suppression needs:
 - Suitable for most fog cannons, misting devices and spray equipment
 - Has fire suppressant properties at higher concentrations
